SUMMARY

MCA student with strong expertise in Python, SQL, and problem solving, with hands-on exposure to building a movie recommendation and analytics platform using Streamlit. Skilled in analyzing user behavior and deriving data-driven insights using NumPy and Pandas. Seeking an opportunity to apply analytical thinking and develop scalable, data-driven solutions.

PROJECT

Movie Recommendation System

- Developed a movie recommendation application using Python and Streamlit
- Implemented efficient logic for filtering, searching, and recommendation generation
- Handled data preprocessing and optimized data handling for performance

Rainfall Prediction System

- Predicted rainfall using historical weather data with Random Forest, handling class imbalance and tuning hyperparameters with GridSearchCV.
- Performed data preprocessing, feature analysis, and visualization with Pandas, NumPy, Matplotlib, and Seaborn.

Blinkit Sales Dashboard Using Power BI

- Developed an interactive Power BI dashboard analyzing Blinkit sales, outlet performance, product segmentation, and customer preferences.
- Extracted insights on sales trends, outlet size contribution, and product visibility using advanced DAX and dynamic visuals.

EDUCATION

Masters of Computer Application (MCA)	pursing (2024-2026)
• G.V.M. Institute of Technology and Management, Sonipat	
Bachelor of Computer Application (BCA)	2021-2024
• Hindu Institute of Management, Sonipat	
12th (Medical)	2020-2021
• Hindu Kanya Sr. Sec. School , Sonipat	
10th	2018-2019
• Methodist Sr. Sec. School, Sonipat	

ADDITIONAL INFORMATION

- **Programming Languages:** Python (Problem Solving), Java, C++
- **Technical Skills:** NumPy, Pandas, Matplotlib, Generative AI, LangChain, Streamlit, Git, MySQL, Power BI, Jupyter Notebook, Advanced Excel, Microsoft Office
- **Certifications:** SQL Certification – HackerRank, Python Certification – HackerRank
